PREMIUM QUALITY SINCE 1930

www.hgm Spice.de

Your specialized service partner for processing services

For which product refinements can we offer our support?

Also in processing services, the Hamburger Gewürz-Mühle has been successful for many years and is a reliable partner. We can offer you the following refining processes and services in the food sector for spices and herbs:

- **Steam sterilization**
product-saving and reliable germ reduction of your natural products
- **Grinding**
14 mill facilities with different grinding technologies
- **Cleaning with our „HGM-TOP-cleaned“ technique**
8 different cleaning units
- **Cutting, crushing, milling**
3 cutting units as well as several cutting mills
- **HGM-Select opto-electronic color selection**
high definition digital cameras scan the goods for impurities
- **Metal check, magnetic cleaning, sieving**
various systems for your product safety
- **Blending**
9 mixing plants for different requirements
- **Packaging**
fully automatic packaging machine for side sealed bags

For your safety.

All manufacturing processes are subject to a quality management system according to FSSC 22000. Other certifications such as Kosher, Halal, Naturland and **EC eco-regulation** complete our portfolio. Benefit from our longtime experience, high safety standards and above average performance. For your questions regarding our services and individual solutions, we would be glad to assist you. Your contact person for all questions is Ms. Daniela Thiel +49 40 78 97 01 45.

We are looking forward to your inquiries.
